Signing MoU ICC Executive Council and EndPlasticSoup London 9 February 2024

The signing of the Memorandum mobilizes a large network of Rotary actors with currently 578 Intercountry Committees (ICCs) and over 400 Rotary and Rotaract participating clubs in Rotary EndPlasticSoup. This will open the avenue for a worldwide cooperation to "end plastic soup" and for joint actions to raise awareness among young people and adults about the problem of single-use plastics. The MoU will allow to define joint projects, which can eventually be submitted for District Grants and Global Grants.
